

Biochemistry Minor

Minor Requirements

Minimum Credits Required: 16

Code	Title	Credits
Required Courses		
All minor courses must be selected in consultation with a Biochemistry adviser.		16
Total Credits		16

Minor Requirements and Notes

- A minimum of 8 credits must be taken at NDSU.
- The department will be required to complete a substitution/waiver form with the courses to be applied to the biochemistry minor. The form must be submitted to the Office of Registration and Records for verification of minor program completion.
- Note: This minor will not be available for view in the Student Advisement/Requirement Report in Campus Connection.
