

Department of Microbiological Sciences

Department Information

- www.ndsu.edu/micro (<http://www.ndsu.edu/micro/>)

Undergraduate Programs of Study

- Biotechnology (major, minor)
- Microbiology (major, minor)
- Microbiology and Masters of Public Health (3+2 option)

Degrees Offered

- Bachelor of Science (B.S.)

Department Description

We explore novel research in agriculture and health and share with students our fascination and knowledge of microbiology. We work to achieve excellence by creating a student-centered environment that values diversity and encourages discovery, ingenuity, integrity, and collegiality. Students interested in per-veterinary medicine should talk with an academic advisor about their options.
