## Program Description

The Department of Sociology and Anthropology offers an M.S. and M.A. degree in Anthropology. The program centers on human heritage past, present and future, cultural and material and it is based on the principle that graduate level education in Anthropology is a desirable preparation for a growing number of career orientations. The precise plan of study for each student is established in consultation with the academic advisor. Graduate students are also expected to enhance their coursework and degree research by engaging in professional development activities such as paper or poster presentations and or attendance at academic conferences, campus and community service, and teaching and research assistantships. Sample positions that our graduates have obtained include university and college teaching, contract archaeology, folklore program coordination, international studies administration, National Park Service archaeology, not-for-profit program event coordination management, teaching English in other countries abroad, and research analysis as cultural experts.

The focus of graduate education in Anthropology is directed toward both the development of applied anthropologists and the advanced training of those seeking to pursue a doctoral degree. Students may elect to take courses in a specialty area, or they may pursue a background in general anthropology. Areas of specialization include cultural anthropology and archeology.

The Anthropology graduate program provides students with the opportunity to expand their background and perspectives in research methods and theory. Consequently, the first year of the program is designed to expose students to anthropological theory and a variety of research methods. Research facilities include the Archaeology Technologies Laboratory and Anthropology Materials Laboratory.

Two program options are available for students. In the thesis option, students work on a research based thesis. Students typically test theoretical assumptions using primary or secondary data. The comprehensive study option is designed for students who wish to combine their studies with some type of specialized field or internship experience. Students electing this option are required to complete a comprehensive study paper related to their experience, such as evaluating a program.

Students in the Anthropology graduate program benefit from a favorable faculty-to-student ratio.

## Admission Requirements

The Anthropology graduate program is open to qualified graduates of universities and colleges of recognized standing. To be admitted with full standing to the program, the applicant must meet the Graduate School's requirements and have adequate preparation in anthropology.

## Financial Assistance

Teaching assistantships are available to qualified applicants. Research assistantships may also be available, contingent on faculty research funds. Applicants for assistantships are considered on the basis of scholarship and potential to undertake advanced study and research

The masters degree (M.A. or M.S.) in Anthropology credit requirements consists of a minimum 30 credits (for the thesis option) or 35 credits (for the paper option), of which 16 must be didactic credits. Core requirements include the following:

- Successfully complete a theory-oriented Anthropology course (such as ANTH 680 Development of Anthropological Theory)
- Successfully complete a methods-oriented Anthropology course (such as ANTH 681 Qualitative Methods in Cultural Anthropology)
- Complete additional coursework to finish the 30-credit requirement (24 for thesis, 26 for paper)
- Complete a research-based thesis or a comprehensive study paper and pass an oral defense of the thesis or paper administered by the student's supervisory committee.

### Jeffrey T. Clark, Ph.D.

University of Illinois at UrbanaChampaign, 1987

Research Interests: Archaeology, digital archaeology, paleoenvironmental studies, archaeological method/theory, heritage and material culture, Oceania, North America

### Kristen R. Fellows, Ph.D.

University of Pennsylvania, 2013

Research Interests: anthropological archaeology, historical archaeology, ethnohistory, African Diaspora, archaeology of plantations; colonial encounters; globalization and transnationalism; feminist archaeology, the Caribbean; North America

### Joy Sather-Wagstaff, Ph.D.

University of Illinois at UrbanaChampaign, 2007

Research Interests: Cultural anthropology, visual anthropology, sociolinguistics, tourism, violence/disasters, museum studies, cultural heritage and memory, North America, Latin America and the Caribbean

## Lecturers

### Travis Kitch, M.S.

North Dakota State University, 2003

Research Interests: Archaeology, medical anthropology

## Emeritus Faculty

### Bill B. Brunton, Ph.D.

Washington State University, 1974

Research Interests: Cultural anthropology, shamanism, religion, North American Indians, intergroup relations

### Timothy J. Kloberdanz, Ph.D.

Indiana University, 1986

Research Interests: Cultural anthropology, expressive culture and folklore, anthropological theory, Indians of the Plains, peoples of Europe, ethnicity, ethnic groups and heritage

**Thomas J. Riley, Ph.D.**

University of Hawaii, 1973

Research Interests: Archaeology, archaeological theory, agricultural systems, Polynesia, Micronesia, Eastern North America
