

Natural Resources Management

Program and Application Information

Program Director:	Dr. Shawn DeKeyser
Email:	Edward.Dekeyser@ndsu.edu
Department Location:	School of Natural Resource Sciences, Morrill Hall 205
Department Phone:	(701) 231-8180
Department Web Site:	www.ndsu.edu/nrm/
Application Deadline:	International applications are due May 1 for fall semester and August 1 for spring and summer semesters. Domestic applicants should apply at least one month prior to the start of classes.
Degrees Offered:	Ph.D., MNRM, M.S.
English Proficiency Requirements:	TOEFL iBT 71; IELTS 6

Program Description

Natural Resources Management (NRM) in the School of Natural Resource Sciences prepares students for the environmental challenges of the 21st century. The Master of Natural Resources Management (MNRM), Master of Science (M.S.) and the Doctor of Philosophy (Ph.D.) NRM degrees are interdisciplinary and offer a broad, systems-based approach toward managing natural resources. NRM graduates are prepared to compete for and be productive in jobs where issues reach beyond a single discipline or subject area. They have the skills necessary to address problems from holistic-ecological and global-social perspectives.

Through the NRM graduate program, students gain a breadth of knowledge in relevant planning, analysis and management.

In cooperation with the following NDSU academic programs and departments, students select a curriculum and an adviser from one of these participating units:

- Agribusiness and Applied Economics
- Agricultural and Biosystems Engineering
- Biological Sciences (Botany and Zoology)
- Civil Engineering
- Communications
- Entomology
- Plant Sciences
- Range Sciences
- Earth and Climate Science
- Geosciences
- Soil Science
- Sociology/Anthropology/Emergency Management
- Veterinary and Microbiological Sciences

The educational objective of the NRM graduate program is to provide formal education in a chosen specialty area, introductions to other subject areas, appropriate course work in analytical methods, and research and writing experiences in the general area of natural resource management. Problem recognition, definition, analysis and resolution, along with critical thinking are the ultimate learning objectives.

Admissions Requirements

The graduate program in Natural Resources Management is open to qualified graduates of universities and colleges of recognized standing. In addition to the Graduate School requirements, applicants may be recommended or required to take the GRE general exam. Consult with the NRM Program Director.

Financial Assistance

Both research and teaching assistantships may be available through the participating academic units. Application for financial aid must be made directly to a department. Applicants are considered on the basis of scholarship and potential to undertake advanced study and research. Limited scholarships

To qualify for the MNRM degree, the candidate must satisfactorily complete a minimum of 32 semester credits of course work in his/her selected curriculum, and an oral presentation based on an NRM topic of the candidate's choice.

To qualify for the M.S. degree, the candidate must satisfactorily complete a minimum of 30 semester units in his/her selected curriculum, an oral examination, and a thesis or comprehensive study paper.

To qualify for the Ph.D. degree, the candidate must satisfactorily complete a course of study of no less than 90 semester credits (including 30 semester credits from the M.S. degree or equivalent), both a written and an oral preliminary examination, a research-based dissertation, and an oral defense of the dissertation. In addition, the candidate presents final public seminar based on the dissertation research. For more specific information, please refer to the Natural Resources Management Graduate Student Guidelines available on the NRM Web site (<http://www.ndsu.edu/nrm>) .

NRM program courses are offered by NRM and the other participating academic units. These include:

- Agribusiness and Applied Economics
- Agricultural and Biosystems Engineering
- Agricultural Systems Management
- Anthropology
- Biology
- Botany
- Civil Engineering
- Communication
- Computer Science
- Economics
- Entomology
- Geosciences
- Industrial and Manufacturing Engineering
- Mathematics
- Microbiological Sciences
- Philosophy
- Plant Pathology
- Plant Sciences
- Political Science
- Range Science
- Sociology
- Soil Science
- Statistics
- Zoology

Francis Casey, Ph.D.

Professor of Soil Science
Iowa State University, 2000

Gary K. Clambey, Ph.D.

Associate Professor of Botany/Biology
Iowa State University, 1975

Edward S. DeKeyser, Ph.D.

Associate Professor of Range Science
North Dakota State University, 2000

Gary A. Goreham, Ph.D.

Professor of Sociology
South Dakota State University, 1985

Christina Hargiss, Ph.D.

Professor of Practice
North Dakota State University, 2008

Robert Hearne, Ph.D.

Associate Professor of Agricultural Economics
University of Minnesota, 1995

Mark Andrew Meister, Ph.D.

Associate Professor of Communication
University of Nebraska, 1997

Jack Norland, Ph.D.

Assistant Professor of Natural Resources Management
North Dakota State University, 2008

G. Padmanabhan, Ph.D.

Professor of Civil Engineering,
Purdue University, 1980

David A. Rider, Ph.D.

Professor of Entomology
Louisiana State University, 1988

Dean D. Steele, Ph.D.

Associate Professor of Agricultural and Biosystems Engineering
University of Minnesota, 1991

Joseph D. Zeleznik

Extension Forester
Michigan State University, 2001
