

# Anthropology

Anthropology is the study of the human condition and experience over both time and space. It sets itself apart from other social sciences in its holistic aspiration to understand all aspects of humankind: past, present and future; cultural and biological. This holistic approach is reflected in the primary subdisciplines of study including archaeology, cultural anthropology and sociolinguistics, physical anthropology, and applied anthropology. Anthropology is both the study and celebration of the diversity of human lifeways, reminding us that despite our different cultures, we are all members of the human family and share a common nature and a common destiny.

The primary concern across subdisciplines and geographical areas at NDSU is with human heritage—material and intangible, past, present and future. Our focal geographical areas include North America, Latin/America and the Caribbean, and Oceania with other areas of the world represented throughout the curriculum.

## Major Requirements

### Major: Anthropology

**Degree Type:** B.A. or B.S.

**Required Degree Credits to Graduate:** 122
