

Department of Microbiological Sciences

Department Information

- www.ndsu.edu/micro

Undergraduate Programs of Study

- Biotechnology (major, minor)
- Microbiology (major, minor)

Degrees Offered

- Bachelor of Science (B.S.)

Department Description

We explore novel research in agriculture and health and share with students our fascination and knowledge of microbiology. We work to achieve excellence by creating a student-centered environment that values diversity and encourages discovery, ingenuity, integrity, and collegiality
