

School of Natural Resource Sciences

Department Information

- www.ndsu.edu/snrs

Undergraduate Programs of Study

- Natural Resources Management (major, minor)
- Range Science (major, minor)
- Soil Science (major, minor)

Graduate Programs of Study

- Entomology
- Natural Resources Management
- Range Science
- Soil Science

Degrees Offered

- Bachelor of Science (B.S.)
- Master of Natural Resources Management (M.N.R.M.)
- Mast of Science (M.S.)
- Doctor of Philosophy (Ph.D.)

Department Description

Natural resources form the foundation of agronomic productivity and ecological health. Increasing global demands for fresh water, sustainable food supplies, energy, and a healthy environment requires preparation of graduates to study and manage these complex issues. The School of Natural Resource Sciences offers degrees in Natural Resource Management, Range Science, Soil Science, and Entomology. Faculty in the School are nationally recognized and careers range from local agronomists to global resource policy makers.
