

College of Health Professions (CHP)

Courses

CHP 125. Medical Terminology for Health Professionals. 1 Credit.

A systematic study of building medical terms and understanding their relationship to human anatomy and physiology, pathology and medical treatment. Pre-MLS, pre-RC, pre-RS, pre-Nursing, pre-Pharmacy majors will receive first preference. Remaining spots, up to the class limit, will then be open to all major programs.

CHP 184. Understanding and Developing Compassion in Patient Care. 1 Credit.

Examination of multiple perspectives on compassion, and reflection on the role of compassion and empathy broadly and in relation to healthcare. Opportunity to apply these concepts through volunteer service in a patient care setting. Restrictions: Pre-Radiologic Sciences, Pre-Respiratory Care or Pre-Medical Laboratory Science majors only.

CHP 190. Critical Thinking and Academic Success. 2 Credits.

This course provides students with opportunities to develop proficient critical thinking skills as they are used in the health professions. This course will also immerse students in reasoning-related activities that facilitate academic success, teamwork, and a demonstrated commitment to the roles and responsibilities required of all health care providers. This course replaces University 189 and analogous courses. The proposed course will be required for all College of Health Professions (CHP) entry level degree programs. The course is required for all students in the College. It will not be waived for students transferring in more than 24 credits. Prereq: Students must declare a pre-professional major in the College of Health Professions (CHP).

CHP 296. Field Experience. 1-15 Credits.

CHP 300. Introduction to the U.S. Health Care System. 3 Credits.

This course introduces students to the structure, design, and groups of individuals who participate in the U.S. health care systems. Particular emphasis will be placed on describing and understanding the roles and responsibilities of various health care professions, describing and understanding the major organizations and/or settings in which health care is provided in the U.S., and describing and understanding the major mechanisms by which health care is financed. Students will also gain an understanding of how these components of the U.S. health care system frame major issues of health care policy and public health that include, but are not limited to ensuring access to health services, ensuring high quality health care, and ensuring that health care is provided efficiently. This course will also immerse students in reasoning-related activities that facilitate inter-professional teamwork and a demonstrated commitment to the roles and responsibilities required of all health care professionals. Prereq: Health Services major and junior or senior standing.

CHP 301. Research Methods in Health Services. 3 Credits.

This course introduces students to tools and techniques used in health-related research and evidence-based medicine. Students will also develop skills and confidence necessary to read, synthesize, and evaluate the health services literature. Prereq: STAT 330 with a grade of C or higher, a B.S. in Health Services major and junior standing or higher.

CHP 321. Perspectives for Wellness. 3 Credits.

This course will explore multiple perspectives in developing healthy habits for living well that involve the body and the mind. This course is offered completely online. The duration of the course is 8 weeks. Prereq: Sophomore, Junior or Senior standing or completion of HDFS 242.

CHP 379. Global Seminar. 1-6 Credits.

NDSU instructed experience or field study in a foreign country. Conducted in English for residence credit. Pre-requisite: Prior approval by International Student and Study Abroad Services and major department. May be repeated. Standard Grading.

CHP 391. Seminar. 1-5 Credits.

CHP 400. Interprofessional Health Care Practice. 3 Credits.

This course is designed for pharmacy, nursing, allied sciences, and other allied health students focusing on the necessary knowledge, skills, and attitudes to function as an effective member of the health care team. Prereq: PHRM 355 for Pharmacy students and NURS 340 and NURS 341 for Nursing students. Cross-listed with HNES.

CHP 450. Complementary and Alternative Therapies: An Evidence-Based Approach. 2 Credits.

This course is designed to provide health professions students with an overview of all forms of complementary and alternative medicine (CAM) commonly practiced in the United States. Students will develop knowledge, skills, and practical tools necessary to understand and evaluate CAM, and provide recommendations for appropriate use to patients or other health care professionals. Prereq: NURS 210 with a grade of C or better or PHRM 480 with a grade of C or better.

CHP 460. Scientific Writing for Health Professionals. 2 Credits.

Students will develop skills and engage with concepts that will help them communicate with scientific, patient, and public audiences. This course is designed to be useful for students in any department in the College of Health Professions but is especially recommended for pharmacy students interested in pursuing a residency. Prereq: PHRM 480 with a grade of C or higher. {Also available for graduate credit - see CHP 660.}

CHP 479. Global Seminar. 1-6 Credits.

NDSU instructed experience or field study in a foreign country. Conducted in English for residence credit. Pre-requisite: Prior approval by International Student and Study Abroad Services and major department. May be repeated. Standard Grading.

CHP 489. Health Services Capstone. 1 Credit.

The purpose of this course is to provide an opportunity for students to reflect upon their experiences in the Bachelor of Science in Health Services program, and use that opportunity for reflection to develop a comprehensive plan that integrates coursework taken throughout the program and posits a clear career trajectory based on that plan. Prereq: Health Services major in their final semester of study.

CHP 491. Seminar. 1-5 Credits.

CHP 660. Scientific Writing for Health Professionals. 2 Credits.

Students will develop skills and engage with concepts that will help them communicate with scientific, patient, and public audiences. This course is designed to be useful for students in any department in the College of Health Professions but is especially recommended for pharmacy students interested in pursuing a residency. Prereq: PHRM 480 with a grade of C or higher. {Also available for undergraduate credit - see CHP 460.}
