Department Information

- **Department Chair:**
Christina D. Weber, Ph.D.
- **Graduate Coordinator:**
Kristen Fellows, Ph.D.
- **Department Location:**
Minard 428
- **Department Phone:**
(701) 231-8657
- **Department Email:**
ndsusanthropology@ndsus.edu
- **Department Web Site:**
www.ndsu.edu/socanth/ (<http://www.ndsu.edu/socanth/>)
- **Application Deadline:**
For full consideration, applications must be received by February 15 for fall semester and September 15 for spring semester
- **Credential Offered:**
M.A., M.S.
- **English Proficiency Requirements:**
TOEFL ibt 100; IELTS 7; Duolingo 125

Program Description

The Department of Sociology and Anthropology offers an M.S. and M.A. degree in Anthropology. The program centers on human heritage past, present and future, both cultural and material, and it is based on the principle that graduate level education in Anthropology is a desirable preparation for a growing number of career orientations. The precise plan of study for each student is established in consultation with the academic adviser. Graduate students are also expected to enhance their course work and degree research by engaging in professional development activities such as paper or poster presentations and/or attendance at academic conferences, campus and community service, and teaching and research assistantships. Sample positions that our graduates have obtained include university and college teaching, contract archaeology, folklore program coordination, international studies administration, National Park Service archaeology, not-for-profit program event coordination management, teaching English in other countries abroad, and research analysis as cultural experts.

The focus of graduate education in Anthropology is directed toward both the development of applied anthropologists and the advanced training of those seeking to pursue a doctoral degree. Students may elect to take courses in a specialty area, or they may pursue a background in general anthropology. Areas of specialization include cultural anthropology and archeology.

The Anthropology graduate program provides students with the opportunity to expand their background and perspectives in research methods and theory. Consequently, the first year of the program is designed to expose students to anthropological theory and a variety of research methods. Research facilities include the Archaeology Technologies Laboratory and Anthropology Materials Laboratory.

Two program options are available for students. In the thesis option, students work on a research-based thesis. Students typically test theoretical assumptions using primary or secondary data. The comprehensive study option is designed for students who wish to combine their studies with some type of specialized field or internship experience. Students electing this option are required to complete a comprehensive study paper related to their experience, such as evaluating a program.

Students in the Anthropology graduate program benefit from a favorable faculty-to-student ratio.
