All enrollments in Counselor Education courses before the student files a graduate plan of study must be approved by the adviser. The School of Education will evaluate graduate courses taken prior to filing the graduate plan of study when the student's plan of study is being considered. Only those courses approved by the School of Education may be included on the final plan of study leading to the degree.

The Counselor Education program does not credential, license, or certify graduates. However, our program meets counseling educational standards and prepares students to meet credentialing, licensure, and/or certification requirements. Students who plan to work outside of North Dakota should discuss their plans with their advisers and review these out-of-state requirements.
