- **Credential Offered:**
B.S.
- **Official Program Curriculum:**
catalog.ndsu.edu/undergraduate/program-curriculum/precision-agriculture/ (<http://catalog.ndsu.edu/undergraduate/program-curriculum/precision-agriculture/>)

The Program

The Precision Agricultural Technology & Management (PATM) program combines an understanding of agricultural, biological and physical sciences with economics, managerial and technical skills. This understanding of science, technology, and related practices, including unmanned aerial systems (drones), remote sensing, artificial intelligence, machine learning, sensors, robotic applications, cloud computing, big data management, and site-specific resources management is a crucial component of modern agriculture. Student will learn how to use the applications that are commonly needed to produce and process food, feed, fiber and fuel, as well as how to market, conduct sales and distribute agricultural products and services. Graduates enter the job market ready to meet the needs of their employer and clients that need help managing precision agricultural technology.

The Precision Agricultural Technology & Management (PATM) program in the Department of Agricultural and Biosystems Engineering has two emphasis areas - Precision Agriculture (PAG) and Agricultural Technology (AT). Both emphasis areas lead to a Bachelor of Science degree in Precision Agricultural Technology and Management.

internships

The curriculum requires at least one internship, but students are highly encouraged to take advantage of as many internship opportunities as they wish, especially co-operative education experiences (paid internships). These are great opportunities for students to gain hands-on experience working with precision agriculture technologies. In addition, internship experiences allow students to make more informed decisions regarding their major, to make better selection of elective courses, and open doors for employment upon graduation.

Career opportunities

Opportunities for PATM graduates are many and diverse. Graduates may, for example, be employed by companies providing equipment and technical services related to precision agriculture, such as Titan Machinery, RDO Equipment, FarmersEdge, IntelligentAg,, John Deere. The adoption of aerial remote sensing and artificial intelligence is on the rise in both private and public sectors, which creates new employment opportunities for PAG graduates. In addition, one always can start his/her own business as a private consultant on precision agriculture. Graduates in our Agriculture Technology option find successes with companies such as Pioneer, ADM, RDO Equipment, and Titan Machinery as Business Managers, Elevator Majors, and Agronomist.

Scholarships

Several scholarships are available through the department. These scholarships range from \$300 to \$4,000. Students also may be eligible for scholarships from the College of Agriculture, Food Systems, and Natural Resources.

A well equipped teaching facility

The PATM degree program is housed in Ladd Hall and the NDSU Pilot Plant West which includes offices, classrooms and laboratories. Laboratories are furnished with equipment typical of that used in industry and research, such as personal computers with software used to manipulate and to write prescriptions to field equipment, several models of unmanned aerial systems (drones), a variety of sensors / cameras (RGB, multispectral, and hyperspectral) mounted to drones and to benches in the lab, tractors, engines, surveying equipment, etc. Faculty expertise varies across a wide and diverse range of specialties related to agricultural and biological systems.

Common Job Outcomes - PAG

- Drone Operator
- Engineering Technician
- Agricultural Crop Consultant
- Technical Support Specialist
- Sales Manager

Common Job Outcomes - AT

- Plant Manager
- Agricultural Sales
- Grain Cooperative Manager
- Grain Merchandiser
- Engineering Technician
- Irrigation Manager
- Production Supervisor
- Agricultural Crop Consultant
- Technical Support Specialist
- Sales Manager
- Farm Credit Analyst

IMPORTANT DISCLAIMER: A Sample Program Guide provides an unofficial guide of program requirements and should be used by prospective students who are considering attending NDSU in the future. It is NOT an official curriculum and should NOT be used by current NDSU students for official degree planning purposes. Note that the official curriculum used by current NDSU students can vary from the Sample Program Guide due to a variety of factors such as, but not limited to, start year, education goals, transfer credit, and course availability.

To ensure proper program completion, enrolled students should utilize Degree Map (<https://www.ndsu.edu/registrar/degreemap/>) and Schedule Planner (<https://www.ndsu.edu/onestop/degree-map-and-planning/>) in Campus Connection and consult regularly with their academic advisor to ensure requirements are being met.

Precision Agriculture Sample Program Guide

Freshman					
Fall	Credits	Spring	Credits		
PAG 115		2 CSCI 114 or TL 116		3	
PAG 115L		1 ENGL 120		3	
ENGL 110		3 PHYS 120		3	
COMM 110		3 SOIL 210 or ANSC 223		3	
MATH 103		3 Program Elective		3	
PLSC 110 or ANSC 114		3			
		15		15	
Sophomore					
Fall	Credits	Spring	Credits	Summer	Credits
ASM 225		3 PAG 315		3 PAG 496:: Field Exp./ Internship	1
CHEM 121		3 PAG 348		1	
CHEM 121L or PHYS 120L		1 SOIL 322 or ANSC 240		3	
PAG 215		3 PLSC 225 or ANSC 220		3	
GEOG 455		4 Program Elective		3	
		Gen Ed Soc/Behavioral		3	
		14		16	1
Junior					
Fall	Credits	Spring	Credits		
ASM 354		3 PAG 454		3	
AGEC 242		3 ENGL 320, 321, 324, or 459		3	
PPTH 324 or ANSC 218		3 Gen Ed Wellness		2	
Gen Ed Hum/Fine Arts/ Diversity		3 Program Elective		6
