Graduate Research Assistants (GRA) conduct research with faculty members that contributes directly to their graduate education and may lead to a dissertation or thesis topic. GRAs responsible for, or with access to, controlled substances and other drugs, explosives, or potentially dangerous chemicals must submit to a criminal background check. Students on research assistantships may also do related research for course credit. The number of hours of work per credit may vary depending on the discipline/department.

Responsibilities may include instruction, grading, course development, and proctoring exams. GTAs must demonstrate English proficiency (refer to catalog section titled "English Language Proficiency Procedures for Graduate Teaching Assistants"). A criminal background check is required.

Expectations of Assistantship Supervisor

Assistantship and Fellowship Contracts

The Graduate Contract specifies expectations and responsibilities of the graduate assistant or fellow.

The hour commitment defined by an assistantship may be averaged across a given time period. For example, a teaching assistantship of 20 hours/week should total to 320 hours across the 16 weeks of the academic term. In these cases, students should be given adequate advance notice of these variable expectations so that they can adjust their schedules to meet the requirements of the assistantship. Supervisors must also remain sensitive to the academic demands faced by graduate students.

Assessment

Assistantship supervisors must provide oral and written assessment of graduate student employees. As outlined in the contract, GSA and GRA performance must be evaluated at least annually. GTA review with respect to overall communication proficiency must be completed by the third week of the semester.
