Materials and Nanotechnology

Department Information

- **Program Director:**
  Erik K. Hobbie, Ph.D.
- **Email:**
  Erik.Hobbie@ndsu.edu
- **Department Phone:**
  (701) 231-6103
- **Department Web Site:**
  [www.ndsu.edu/materials_nanotechnology/](http://www.ndsu.edu/materials_nanotechnology/)
- **Application Deadline:**
  April 1 for fall semester.
- **Credential Offered:**
  Ph.D., M.S.
- **Test Requirement:**
  GRE
- **English Proficiency Requirements:**
  TOEFL iBT 71, IELTS 6; Duolingo 100

North Dakota State University (NDSU) offers an interdisciplinary program leading to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degree in Materials and Nanotechnology (MNT). The program includes a series of required MNT core courses; additional elective courses; written and oral preliminary examinations; a doctoral dissertation based on independent, original research in materials and nanotechnology; and a final oral examination on the dissertation.

**Admission Requirements**

The program in Materials and Nanotechnology is open to qualified graduates of universities and colleges of recognized standing. Applicants with a degree in the disciplines of chemistry, engineering, material science and engineering, physics, polymer science, polymer engineering, or related fields will be considered for admission. Applicants must meet the Graduate College requirements [https://catalog.ndsu.edu/graduate/admission-information/](https://catalog.ndsu.edu/graduate/admission-information/).

**Financial Assistance**

Students are routinely supported through research assistantships. Applicants are considered based on scholarship, potential to undertake advanced study and research, and financial need. All students who submit complete applications by the appropriate deadlines are considered for assistantships.

In addition to the stipend, graduate assistants receive a graduate tuition waiver. Tuition waivers cover base tuition for NDSU graduate credits only. Students are responsible for differential tuition, student fees, and tuition for non-graduate level credits taken or Cooperative Education credits.

By the end of the first academic year, the student will select an academic adviser from among the MNT faculty and arrange for the appointment of a supervisory committee. This committee will consist of at least four members of the graduate faculty. This includes the student’s major adviser, at least one additional MNT faculty member, and a graduate school representative.

The plan of study will be prepared by the student, in consultation with the major adviser and supervisory committee, by the end of the first year in residence. The plan must be approved by the student’s graduate supervisory committee, the MNT Program Director, and the Graduate College dean. Master’s students must complete the plan of study by the end of the second semester of study. Doctoral students should complete the plan of study at the end of the first year of study and at least one month prior to the comprehensive oral examination.

**Master of Science**

Materials and Nanotechnology students are able pursue a master’s degree under either the Plan A - Master’s Thesis or the Plan C - Culminating Experience option. Each option requires a minimum of 30 graduate credits with a cumulative grade point average of 3.0 or better.

The Plan A thesis option represents a more traditional Master of Science degree, with an independent research component in the form of an original thesis that can serve as a foundation for future doctoral work in science or engineering. For the thesis option, of the required minimum 30 graduate credits, at least 16 credits must be from approved graduate courses numbered from 601-689, 691, 700-789, and 791 while the research credits (798) must be not fewer than 6 nor more than 10.
The Plan C option is appropriate for working professional students or students who are certain that they do not wish to pursue a doctorate in any field of science or engineering. In the context of the MNT program, this option requires a 6-10 credit culminating experience (794) which replaces the research credits (798).

Ph.D.

The doctorate requires a minimum of 90 graduate credits. A minimum of 27 credits of didactic coursework are required; no more than 15 didactic credits may be transferred as part of the Plan of Study. The MNT Ph.D. program requires students to complete a series of 7 core courses totaling 17 semester credits. The student will complete additional elective courses to fulfill the Graduate School requirement of 27 semester credits in academic courses. An overall GPA of 3.0 or better must be maintained.

### Core Curriculum

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MNT 729</td>
<td>Materials Characterization</td>

CHEM 732  Advanced Survey of Analytical Chemistry  4
CHEM 736  Mass Spectrometry  2
CPM 673  Polymer Synthesis  3
ME 633  Composite Materials Science and Engineering  3
ME 751  Advanced Thermodynamics  3
PHYS 611  Optics for Scientists & Engineers  3
PHYS 781  Solid State Physics  3

**Affiliated Faculty**

**Achintya N. Bezbaruah, Ph.D.**
University of Nebraska-Lincoln, 2002
Research Interests: Environmental Sensors, Recalcitrant and Micro Pollutants, Contaminant Fate and Transport, Small Community Water and Wastewater Treatment, Environmental Management

**Dr. Yongki Choi, PhD**
City University of New York, 2010
Research Interests: Nanoparticle Based Electronics and Sensors

**Andrew Croll, Ph.D.**
McMaster University, Ontario, 2009
Research Interests: Polymers, Diblock Copolymers, Thin Films, Pattern Formation, Mechanics

**Stuart G. Croll, Ph.D.**
University of Leeds, 1974
Postdoctoral: National Research Council, Canada
Research Interests: Weathering Durability of Coatings, Physical Chemistry and Suspension Stability, Pigmentpolymer Interactions, Film Formation Processes, Coating and Polymer Physics

**Alan R. Denton, Ph.D.**
Cornell University, 1991
Postdoctoral, University of Guelph, 1991-94; Technical University of Vienna, 1994-95, Research Center Julich, 1996-98
Research Interests: Soft Condensed Matter Theory, Computational Physic

**Erik K. Hobbie, Ph.D.**
University of Minnesota, 1990
Postdoctoral: NRC Fellow, NIST, 1990-1992
Research Interests: Colloidal nanoparticles, Polymers, Complex Fluids, Chromatography, Self-assembly, Photoluminescence, Flexible Electronics

**Syeed M. Iskander, Ph.D.**
Long Jiang, Ph.D.
Nanyang Technological University, 2003
Research Interests: Polymer and Polymer Composite Processing, Polymer Processing Machinery and Design, Nanocomposites, Polymers and Composites Derived from Biomass, Functional Composites with Novel Microstructures.

Alan R. Kallmeyer, Ph.D.
University of Iowa, 1995
Research Interests: Theoretical, Computational, and Experimental Solid Mechanics, Fatigue and Fracture of Engineering Materials, Composite Materials

Dinesh Katti, Ph.D.
University of Arizona, 1991
Research Interests: Geotechnical Engineering, Constitutive Modeling of Geologic Materials, Expansive Soils, Multiscale Modeling, Steered Molecular Dynamics, Computational Mechanics, Nanocomposite, and Bionanocomposites

Kalpana Katti, Ph.D.
University of Washington, 1996
Research Interests: Advanced Composites, Nanomaterials, Biomaterials, Biomimetics, Materials Characterization and Modeling, Analytical Electron Microscopy, and Microspectroscopy, Bone Tissue Engineering

Dmitri Kilin, Ph.D.
Chemnitz University of Technology, 2000
Research Interests: Photo-induced Dynamic Processes of Charge Transfer, Nonradiative Charge Carrier Relaxation, Surfaces/Interfaces of Metal/Semiconductor Nanomaterials For Photovoltaic/Photocatalytic Energy Conversion

Svetlana Kilina, Ph.D.
University of Washington, Seattle, 2007

Andrei Kryjevski, Ph.D.
University of Washington, 2004
Research Interests: First-principles Theoretical Descriptions of the Electronic Properties of Nanomaterials

Ivan T. Lima Jr., Ph.D.
University of Maryland, 2003
Research Interests: Photonics

Sylvio May, Ph.D.
Jena, 1996
Research Interests: Physics of Lipid Membranes, Biophysics

Keerthi Nawarathna, Ph.D.
University of Houston, 2005
Research Interests: Lab-on-a-chip Technologies, Single-cell Genomics, Nanobioengineering, Tissue Engineering, Novel Imaging Techniques for Biology, Computation/simulations

Mohiuddin Quadir, Ph.D.
Freie University of Berlin, 2010
Research Interests: High Performance Delivery Technologies, Biosynthetic Interfaces for Medical Coatings, Synthesis of New Polymers from Bio-based Resources

Bakhtiyor Rasulev, Ph.D.
Uzbek Academy of Science, 2002
Postdoctoral, Drew University, 2002; Jackson State University, 2004-2007

Mukund P. Sibi, Ph.D.
City University of New York, 1980
Research Interests: Synthetic Organic Chemistry, Natural Products

Wenfang Sun, Ph.D.
Chinese Academy of Sciences, 1995
Postdoctoral, University of Alabama, Birmingham, 1997-1999
Research Area: Organic Materials Chemistry

Xiangqing (Annie) Tangpong, Ph.D.
Carnegie Mellon University, 2006
Research Area: Vibrations, Dynamics and Friction: Friction-Vibration Interaction; Friction Damping in Rotating Structures; Damping in Nanocomposites and Biomaterials.

Chad A. Ulven, Ph.D.
University of Alabama at Birmingham, 2005

Andriy Voronov, Ph.D.
Lviv Polytechnic Institute, 1994
Postdoctoral, Institute Charles Sadron, CNRS, 1997
Research Interests: Polymer Synthesis and Characterization

Alexander J. Wagner, Ph.D.
University of Oxford, 1997
Research Interests: Computational Soft Matter, Phase Separation, Diffusion, Interface Physics

Danling Wang, Ph.D.
University of Washington, 2013
Research Interests: Chemiresistive Sensors, Semiconducting Nanomaterials, Optical Spectroscopy, Electronic Devices, Microfabrication

Dean Webster, Ph.D.
Virginia Polytechnic Institute and State University 1984
Research Interests: Synthesis of High Performance Polymers, Polymerization Reactions, Crosslinking Chemistry, Quantitative Structure-Property Relationship

Xiangfa Wu, Ph.D.
University of Nebraska-Lincoln, 2003
Beijing Institute of Technology, 1998
Research Interests: Nanofabrication/Nanomaterials, Advanced Functional Composites, Fracture/Impact Mechanics

Wenjie Xia, Ph.D.
Northwestern University, 2016

Qifeng Zhang, Ph.D.
Peking University, 2001
Postdoctoral, University of Washington, 2006-2008
