Mathematics

Department Information

- **Department Chair:**
  Friedrich Littmann, Ph.D.

- **Graduate Coordinator:**
  Torin Greenwood, Ph.D.

- **Department Location:**
  408 Minard Hall

- **Department Phone:**
  (701) 231-8171

- **Department Web Site:**
  [www.ndsu.edu/math](http://www.ndsu.edu/math/)

- **Application Deadline:**
  Early review begins January 31 rolling through March 31 or until full.

- **Credentialed Offered:**
  Ph.D., M.S.

The Department of Mathematics offers graduate study leading to the degrees of Master of Science (M.S.) and Doctor of Philosophy (Ph.D.). Advanced work may be specialized among the following areas:

- algebra, including algebraic geometry, commutative algebra, and homological algebra
- analysis, including approximation theory, ergodic theory, harmonic analysis, and operator algebras
- applied mathematics, mathematical biology, differential equations, dynamical systems, neural networks
- combinatorics and graph theory
- geometry/topology, including differential geometry, geometric group theory, and symplectic topology

After passing their preliminary examinations, students are strongly urged to attend research seminars and discuss research opportunities with faculty members. By the end of their second semester, students select a supervisory committee and develop a plan of study specifying how all degree requirements are to be met. One philosophical tenet of the Department of Mathematics graduate program is that each mathematics graduate student will be well grounded in at least two foundational areas of mathematics. To this end, each student's background will be assessed, and the student will be directed to the appropriate level of study.
