Students majoring in apparel, retail merchandising and design choose one of the three options – Fashion Product Development, Fashion Entrepreneurship, and Retail Merchandising.

Students interested in design and product development would find the Fashion Product Development a great area of study. Graduates develop and deliver products to the global marketplace. This option focuses on developing, designing and marketing materials and products within the market and industry.

In the Fashion Entrepreneurship option, you will not only learn how to develop and sell products, you will also learn how to manage a successful business. Alumni from the program are using what they learned in the classroom to successfully run their own businesses.

New retail opportunities are emerging around the world today with digital retailing and retail technology. The course of study in the Retail Merchandising option includes classes on sourcing, buying, merchandising, promotion, and consumer behavior.
