- **Credential Offered:**
B.S.; B.A.

This dual major takes advantage of close connections between Computer Science (<https://www.ndsu.edu/cs/>) and Mathematics (<https://www.ndsu.edu/math/>), representing a streamlined curriculum that covers important concepts of both majors while removing redundancies between the programs. Students earn one degree with this dual major.

It is of particular interest to Computer Science students who wish to expand their understanding of mathematical foundations beyond the concepts that are covered in a B.S. in Computer Science with a Mathematics minor. Students are encouraged to enroll in this program if they intend to pursue a graduate degree in one of the more theoretical areas of computer science, or just generally have an interest in expanding their mathematics education.

Sample Program Guide

IMPORTANT DISCLAIMER: This guide is not an official curriculum. This guide is a sample four-year degree plan of how students might plan this major with other degree requirements to complete their education in four years. Student plans will vary from this sample due to a variety of factors, such as, but not limited to, start year, education goals, transfer credit, and course availability. To ensure proper degree completion, enrolled students should utilize Degree Map (<https://www.ndsu.edu/registrar/degreemap/>) and Schedule Planner (<https://www.ndsu.edu/onestop/degree-map-and-planning/>) in Campus Connection and consult regularly with academic advisors to ensure graduation requirements are being met.
